Reliable made affordable

About Himel

Himel is a multinational manufacturer and provider of electrical products successfully combining global expertise with local knowledge.

Founded by a Spanish entrepreneur in 1958, the company pioneered in exporting quality electrical enclosures, establishing Himel brand globally. Today, our global footprint and technology enable us to provide the best combination of affordable and reliable offers for Low Voltage Power distribution, Industry Automation and Home Electric to our long-term customers and partners in over 50 countries where we are present.

Himel Variable Speed Drives (VSD)

Himel variable speed drives offer you a wide range of fully tested and ready-to-connect motor control possibilities. From simple pump and fan applications to complex, high-performance machines, we have a reliable affordable drive for you, no matter what you need.

High Performance

Improved Energy Savings

Multitude of Function

Easy to Use

Longer Lifetime

Your Benefits

	Features	Your benefits
High performance 	<ul style="list-style-type: none"> ◆ Excellent overload performance: 150% 60s, 180% 3s, 200% 1s (normal test environment) ◆ High start torque performance: 0.5Hz, 150% ◆ Excellent current control capability : The inverter provides sufficient stable output torque when the load is suddenly changed to avoid trip operation 	<ul style="list-style-type: none"> ◆ Improves productivity of machine ◆ Less interruptions of the production line
Improved energy savings 	<ul style="list-style-type: none"> ◆ Integrated Eco-mode for V/f and V²/f automatically adapts the motor magnetic flux to save energy. ◆ Improved special PID control with sleep mode helps to save more energy for pump application 	<ul style="list-style-type: none"> ◆ Energy savings during low dynamic load cycles such as pump and fan. ◆ Increases the potential savings by up to 70%. ◆ Greatly reduces the return time of investment.
Multitude of function 	<ul style="list-style-type: none"> ◆ With a new software platform, our VSDs offer more functions such as flexible V/F curve, 16 stage multi- speed control, command binding, industry specific functions, and many more. ◆ Easy to communicate with upper controller via built-in RS485 Modbus protocol . 	<ul style="list-style-type: none"> ◆ No additional upper controller is needed for stand-alone machine, hence saving the system integration cost. ◆ Easy to do the system integration for large production line and long distance communication
Easy to use 	<ul style="list-style-type: none"> ◆ Compact design and side-by-side mounting, din-rail installation. ◆ High accuracy motor parameters self-tuning function ◆ Supports pluggable keypad and extension keypad ◆ Wall-through mounting ◆ AVR (Automatic voltage regulation) technology 	<ul style="list-style-type: none"> ◆ Makes it possible to use in smaller cabinets ◆ No need to set motor parameters anymore ◆ Easy to operate and maintain
Longer lifetime 	<ul style="list-style-type: none"> ◆ Stable operation under main input voltage fluctuations. Reliable operation with net tensions between 380 V and 480 V (-15%/+10 %) ◆ Fully coated PCB ◆ Dust shield cover ◆ Better cooling and removable fan design 	<ul style="list-style-type: none"> ◆ Wider voltage range, increases robustness of the drive in difficult environment ◆ Automatic adaptation in case of unstable power supply ◆ Longer life in high humid and high dust occasions ◆ Easy to maintain

SPECIAL FEATURES & BENEFITS

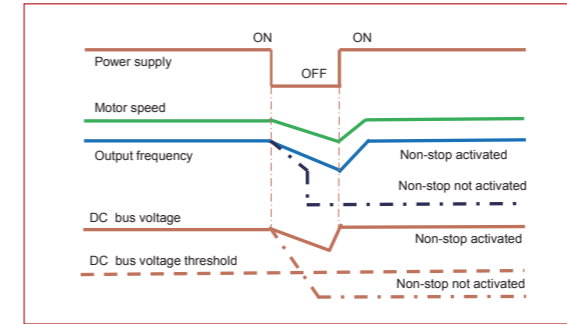

PID with sleep mode

- ◆ Water supply PID adjustment: If the feedback pressure is higher than the set pressure, start the sleep detection to save more energy.
- ◆ After the sleep time delay, if the feedback pressure is still greater than the set pressure, the VSD enters into the sleep mode and slows down to the lower frequency
- ◆ When the feedback pressure reach to the wake up threshold pressure and the wake up detection time passes, it will start automatically
- ◆ Target applications: Pump for HVAC, Water /Waste water

E B

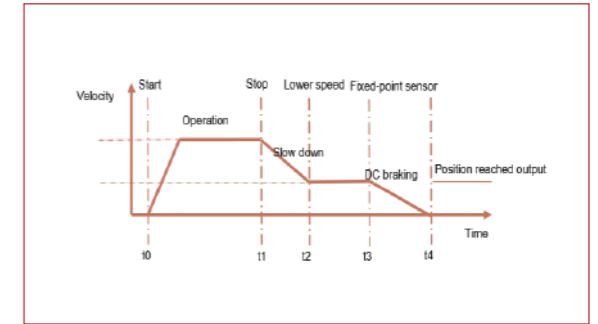

Non-stop function

- ◆ When an instant power loss occurs, the VSD guarantees the continuous operation of the production line, which meets the continuous operation process requirement in conditions like lightning, large power grid impact and unstable power supply environments.
- ◆ Target applications: Chemical fiber, textile

E B

Easy to add customized function like fixed point stop control

- ◆ Always stop at fixed point
- ◆ When there is a stop command, the motor slows down to the lower speed point, searches for a fixed stop point (usually connected to DI input by a sensor), stops at this point, and triggers an output position signal.
- ◆ Target applications: Needling machine, rotating table

E

Simple PLC

- ◆ Multistage speed control for up to 16 stages. Frequency, time, timer unit and direction for each stage can be set individually.
- ◆ PLC operation mode:
 - Single cycle (After a single cycle it keeps running at final value)
 - Continuous cycle
- ◆ No need for upper controller
- ◆ Target applications: Fan, ball mill, centrifuge

E B

Main + auxiliary frequency set

- ◆ Receives the frequency in any state, such as I/O, simple PLC, PI closed loop, multi-speed state. It uses auxiliary frequency for super precise speed.
- ◆ Target applications: Synchronization use case

E B

Rich communication protocols

- ◆ Communication expansion card supports a wide range of communication protocols, making it easy to be integrated to the system and realize long-distance transmission.
- ◆ Supports functional expansion cards like I/O, PG and other customized cards.

E

Fixed-length control

- ◆ Use DI4/DI5 (DI4/DI5 = 44) to input speed pulse for real-time length measurement. When the set length (set by FC.14) is reached, it triggers the length reached signal, and the fixed-length function is realized.
- ◆ Target applications: Textile machine, cable drawing machine

E B

Sagging function

- ◆ When more than one motor drives the same load, this function can be used to adjust the speed of the motor for uniform distribution of load.
- ◆ Target applications: Tension control in chemical industry and roll control in glass and metallurgy industry

B Basic

Wherever you need an efficient motor, a variable speed drive is a must...

BASIC Series: Small & Simple General Purpose Applications

EXPERT Series: Pumps, Fans & Advanced General Purpose Applications

0.4kW ~ 315kW
220V | 380V - 440V

Target Applications

BASIC Series

- Small machines:
- ◆ Bread machine
 - ◆ Bag machine
 - ◆ Carving machine
- Simple applications:
- ◆ Small conveyor
 - ◆ Small fan
 - ...

EXPERT Series

- Pumps:
- ◆ Water pump
 - ◆ Paper mill and pulp pump
 - ◆ Sewage pump
 - ◆ Fire patrol pump
 - ◆ Rod pump
- Fans:
- ◆ Industrial fan
 - ◆ Air blower
 - ◆ Ventilation

- Heavy & complicated machines:
- ◆ Material handling machine
 - ◆ Textile machine
 - ◆ Material working machine
 - ◆ Industrial washing machine
 - ◆ Air compressor
 - ◆ Construction elevator
- Advanced applications:
- ◆ Metal & mining process
 - ◆ Petrochemical

Target Applications

■ Irrigation

■ Sewage

■ Fountain

■ Sand pump

■ Circulating pump

■ Photovoltaic pump

■ Rod pump

■ Drying

■ Ventilation

■ Dust removal

■ Air blowing

■ Hot surface treatment

■ Air supply fan for boiler

■ Industrial fan

■ Punching

■ Grinder

■ Textile

■ Carving

■ Sawing machine

■ Metal work

■ Plastic work

KNOW YOUR MACHINE BETTER

HVAC, Water and Waste Water

Fans, Pumps, and Air Conditioning

- ◆ Integrated Eco-mode on V/f and V²/f control automatically adapts motor flux to save energy.
- ◆ Improved Special PID control with sleep mode for pump application can help to save more energy.
- ◆ Speed tracking: For smooth catching and restarting of a running fan.
- ◆ Dry pump protection, automatically detects a dry running pump to protect the equipment.

Textile and Dyeing

Heat setting stenter, twister, air-flow spinning, spinning machine, thin-film machine, chemical fiber industry, and needling machine

- ◆ Separate cooling channel: Detachable cooling fan design makes it easy to clean cotton.
- ◆ Wall-through mounting option (≤185kW), dust shield cover option (≤22kW) and dust filter option
- ◆ Enhanced PCB coating
- ◆ Wide input voltage range, able to work for a long time under low voltage environments.
- ◆ Non-stop function to guarantee the continuous operation of production line.
- ◆ Fixed-length control and fixed-point stop control
- ◆ Main + auxiliary frequency set

Woodworking machinery

Wood and veneer cutting machines, planers, peeling machine, carving machines

- ◆ Integrated brake choppers: No need to purchase an external brake chopper.
- ◆ DIN rail mounting and quick I/O connection, quick and easy installation and maintenance.
- ◆ Multiple display options: Extendable LED/LCD display keypad. Integrated multi-stage speed control (16 steps) and simple PLC function without any additional PLC.
- ◆ High start torque, high frequency output (650Hz), accurate speed control for highly dynamic applications to improve the productivity.

Metal processing machinery

Lathe, grinder, drill, planer, boring, cold forging, and engraving machine

- ◆ Compact design
- ◆ DIN rail mounting (up to 5.5 kW) and side by side mounting (up to 22 kW).
- ◆ High start torque, high frequency output (650Hz), and accurate speed control for highly dynamic applications to improve the productivity.
- ◆ Integrated brake chopper.
- ◆ Over excitation braking can help to reduce braking times by up to 50% without any external braking resistor.
- ◆ Sagging function
- ◆ Main + auxiliary frequency set

Food and packaging

Conveyor, blow molding, blender, cutter, and labeling machines

- ◆ Compact design
- ◆ DIN rail mounting (up to 5.5 kW) and side by side mounting (up to 22 kW).
- ◆ Counter function using DI4/DI5
- ◆ Extendable LED/LCD display keypad support for convenient and safe monitoring and operation.
- ◆ Integrated multi-stage speed control (16 steps) and simple PLC function without any additional PLC.
- ◆ Fixed-length control for cutting process.
- ◆ Fixed-point stop control

Rubber and plastic machinery

Scroll extruder, pelletizer, and bagging machine

- ◆ Compact design
- ◆ DIN rail mounting (up to 5.5 kW) and side by side mounting (up to 22 kW), to save cabinet space.
- ◆ High start torque, high frequency output (650Hz), accurate speed control for highly dynamic applications to improve the productivity.
- ◆ Precise control to ensure the material thickness evenly, in order to save cost and ensure the quality of products.
- ◆ Torque limit and slip compensation, especially used for constant output torque. Minimize the torque fluctuations and improve the extrusion process quality.

CAD Diagrams

Wiring Diagrams

Accessories

Adapted for harsh environment

Dust-proof design: Comprehensive anti-corrosion coating and independent air duct design. Optional dust preventing accessories can also be installed to increase overall protection capabilities against high humid or excessively dusty environments.

Target Applications: Textile machines

Modular Design

Easy fan replacement : No need to disassemble the entire VSD for a quick fan replacement. This ease of fan change makes the VSD ideal for applications like wind machine that need regular cleaning of air ducts.

Accessories

Great adaptability to environment

Power grid: Suitable for neutral grounded power grids.

EMC: Enhanced electromagnetic interference immunity against disturbances like surge, electric noise, high frequency noise and static electricity etc.

Easy and comprehensive installation

Comprehensive installation ways to fulfill all kinds of applications:

- ◆ Cabinet
- ◆ Wall-mounting
- ◆ Din rail
- ◆ Flange mounting

System Architecture

Options for System Integration

Push Buttons (HLAY5)

- ◆ Degree of protection: IP44 (IP65 with protection cover)
- ◆ Type: Flush button / Mushroom / Selector switches / Key switches / Emergency stop / Illuminated / Double / Pilot light
- ◆ Drilling / Cut-out for mounting: $\varnothing 22\text{mm}$
- ◆ Standard: IEC 60947-5-1

Push Button

Selector Switches

Push Button Switches

Indicator Light

Indication Light (HLD11)

- ◆ Degree of protection: IP65
- ◆ Type: Full cover head/ Half cover head/ Long terminal/ Short terminal
- ◆ Color: White/ Green/ Red/Yellow/ Blue
- ◆ Drilling or cut-out for mounting: $\varnothing 22\text{mm}$
- ◆ Standard: IEC 60947-5-1

Relay (HDZ9)

Rated Current: 3A, 5A, 10A

- ◆ Poles: 2-pole, 3-pole, 4-pole
- ◆ Maximum Rated Operating Voltage: 690V
- ◆ Rated Operating Frequency: 50/60Hz
- ◆ Coil Specification: DC: 6V~220V; AC: 6V~380V
- ◆ Additional Feature: Rotary push button
- ◆ Certificate: CB, CE

Contactor Relay (HDZ3)

- ◆ Pole: 3-pole
- ◆ Coil Voltage: 24-440V
- ◆ Coil Frequency: 50Hz, 50/60Hz
- ◆ Certificate: CE

Miniature Circuit Breaker (HDB9)

- ◆ Elegant and clear indication window
- ◆ New clip design makes it easy to install
- ◆ Square terminal and connection holes makes it more secure to connect wiring
- ◆ Specifications
 - Rated Current: 1 – 63A
 - Breaking Capacity: 6kA, 10kA
 - Frame: 63A
 - Poles: 1P, 2P, 3P, 4P

Molded Case Circuit Breaker (HDM3)

- ◆ Easy Installation
The double-deck cover design of the HDM3 series assures easy installation and removal of accessories.
- ◆ High Performance
The patent design in HDM3 ensures quick extinguishing of arc.
- ◆ Secured Operation
HDM3 is trustworthy and safe for use due to the double-deck cover design.
- ◆ Specifications
 - Frame: 63,100, 160, 250,400,630,800,1250A
 - Rated Voltage: 400/415V, 50/60 Hz
 - Breaking Capacity: 18kA - 85kA
 - Rated Current: 10A -1250A
 - Poles: 3P, 4P
 - Tripping type: Thermal Magnetic, Magnetic

Protection type: Power distribution, Motor protection
 Connection: fixed-front connection, fixed-rear connection, plug-in connection, draw-out rear connection
 Standard: IEC 60947-2
 Certificates: CE, KEMA (TUV), CB
 Operating Temp: 40°C & 50°C
